## Schedule 1 Import Policy

### Section V, MINERAL PRODUCTS

#### Chapter 27 Mineral Fuels, Mineral Oils And Products Of Their Distillation; Bituminous Substances; Mineral Waxes.

| Main Notes |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                  |                   |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|-------------------|
| Sl.No.     | Notes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Notification No. | Notification Date |
| 1          | This Chapter does not cover:<br><br>(a) separate chemically defined organic compounds other than pure methane and propane which are to be classified in heading 2711;<br><br>(b) medicaments of heading 3003 or 3004; or<br><br>(c) mixed unsaturated hydrocarbons of heading 3301, 3302 or 3805.                                                                                                                                                                                                                                                                                                                            |                  |                   |
| 2          | References in heading 2710 to "petroleum oils and oils obtained from bituminous minerals" include not only petroleum oils and oils obtained from bituminous minerals but also similar oils, as well as those consisting mainly of mixed unsaturated hydrocarbons, obtained by any process, provided that the weight of the non-aromatic constituents exceeds that of the aromatic constituents. However, the references do not include liquid synthetic polyolefins of which less than 60% by volume distils at 300°C, after conversion to 1,013 millibars when a reduced-pressure distillation method is used (Chapter 39). |                  |                   |
| 3          | For the purposes of heading 2710, "waste oils" means waste containing mainly petroleum oils and oils obtained from bituminous minerals (as described in Note 2 to this Chapter), whether or not mixed with water. These include:                                                                                                                                                                                                                                                                                                                                                                                             |                  |                   |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |  |
|--|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
|  | <p>(a) such oils no longer fit for use as primary products (for example, used lubricating oils, used hydraulic oils and used transformer oils);</p> <p>(b) sludge oils from the storage tanks of petroleum oils, mainly containing such oils and high concentration of additives (for example, chemicals) used in the manufacture of the primary products; and</p> <p>(c) such oils in the form of emulsions in water or mixtures with water, such as those resulting from oil spills, storage tank washings, or from the use of cutting oils for machining operations.</p> |  |  |

#### Sub-Heading Notes

| Sl.No. | Notes                                                                                                                                                                                                                                                                                           | Notification No.                 | Notification Date |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------|
| 1      | For the purposes of sub-heading 2701 11 "anthracite" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) not exceeding 14%.                                                                                                                                         |                                  |                   |
| 2      | For the purposes of sub-heading 2701 12, "bituminous coal" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) exceeding 14% and a calorific value limit (on a moist, mineral-matter-free basis) equal to or greater than 5,833 kcal/kg.                            |                                  |                   |
| 3      | For the purposes of tariff items 2707 10 00, 2707 20 00, 2707 30 00 and 2707 40 00, the terms "benzol", "(benzene)", "toluol" (toluene), "xylol" (xylenes) and "naphthalene" apply to products which contain more than 50% by weight of benzene, toluene, xylenes or naphthalene, respectively. |                                  |                   |
| 4      | For the purposes of sub-heading 2710 12, "light oils and preparations" are those of which 90 % or more by volume (including losses) distil at 210 °C according to the ISO 3405 method (equivalent to the ASTM D 86 method).                                                                     |                                  |                   |
| 5      | For the purposes of the sub-headings of heading 2710, the term "biodiesel" means mono-alkyl esters of fatty acids of a kind used as a fuel, derived from animal, vegetable or microbial fats and oils whether or not used.                                                                      | Notification No.<br>54/2015-2020 | 09.02.2022        |

#### Policy Conditions

| Sl.No. | Notes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Notification No. | Notification Date |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|-------------------|
| 1      | Import of naphtha is free.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                  |                   |
| 2      | Import of SKO shall be allowed through State Trading Enterprises (STEs) i.e. IOC, BPCL, HPCL and IBP for all purposes with STC being nominated as a State Trading Enterprise (STE) for supplies to Advance Licence holders. Advance Licence holders shall however, have the option to import SKO from the above mentioned STEs including STC                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                  |                   |
| 3      | Import is restricted in terms of Interim PIC Procedure of Rotterdam Convention on Prior Informed Consent procedure for hazardous chemicals and pesticides.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                  |                   |
| 4      | Automobile industries, having RandD registration, are allowed to make free import of reference fuels (Petrol and Diesel) which are not manufactured in India, up to maximum of 5 KL per annum, subjects to the condition that the said imported reference fuels shall be used for RandD and emission testing purposes only                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                  |                   |
| 5      | Import allowed through IOC subject to para 2.21 of Foreign Trade Policy, except for the companies who have been granted rights for marketing of transportation fuels in terms of Ministry of P&NGs Resolution No. P23015/1/2001-MKT. Dated 8.3.2002 including HPCL, BPCL and IBP who have been marketing transportation fuels before this date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 08/2023          | 29/05/2023        |
| 6      | <p>Import of pet coke for fuel purpose is prohibited. However, import of Pet coke of the following categories shall be permitted, subject to conditions :</p> <p>a. Import of Pet coke is free for cement, lime kiln, calcium carbide, gasification industries and graphite electrode industries for use as feed stock or in the manufacturing process only on Actual User basis.</p> <p>b. Total import of 1.9 Million MTs of Raw Petroleum Coke(RPC) for manufacturing Calcined Petroleum Coke(CPC) and 0.5 Million MTs of CPC for Aluminium Industry respectively shall be permissible during 2024-25, and 1.9 Million MTs of RPC for manufacturing CPC Manufacturing and 0.8 Million MTs of CPC for Aluminium Industry respectively shall be permissible from 2025-26 onwards, subject to the following conditions:</p> <p>i. Import of RPC &amp; CPC shall be permitted only as a feedstock / raw material and under no circumstances shall be used as fuel.</p> <p>ii.Import of RPC and CPC shall be permitted to cater entirely to the domestic needs of aluminium</p> | 27/2024-25       | 04/09/2024        |

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |         |            |

|   | <p>industry and other industries, for the processes as permitted under the relevant regulations / statutes.</p> <p>iii. Import of RPC by Calciners shall be on Actual User basis and shall not be transferred to any other unit(s) including SEZ unit(s). Export of CPC by Calciners shall not be permitted.</p> <p>iv. Import of CPC by Aluminium Industry shall be on Actual User basis. Export of Anode by Aluminium Industry shall not be permitted.</p> <p>v. The RPC/CPC Processing capacity as on the date of the CAQM Order i.e. 14.02.2024 shall be taken on record for any pro-rata allocations.</p> <p>vi. All other conditions as mentioned in the Commission for Air Quality Management in NCR &amp; Adjoining Areas Order No- F. No. 160014/16/2021-MERD/PetCoke-35 dated 14.02.2024 should also be complied with.</p> <p>c. Import of Needle Pet coke (NPC) (under HS Code 27131190) is 'Free' for making graphite anode material for Li-Lon battery as feedstock/raw material and not for any other purposes including use as a fuel or for trade. The Sulphur content in the NPC should be less than 0.8% which shall be monitored by State Pollution Control Boards (SPCBs)/CPCB.</p> <p>d. Import of Low Sulphur Pet Coke (under HS Code 27131190) is 'Restricted and permitted subject to Import Authorisation from DGFT for use in Integrated Steel Plants (ISP) only for blending with the coking coal in recovery type coke ovens equipped with desulphurisation plant and not for any other purpose including use as fuel or for trade purpose. Use of pet coke shall be limited to 10% of its feedstock to the coke oven with pet coke sulphur content not exceeding 3%. Additionally, continuous analysers for measurement of sulphur dioxide shall be installed in the stacks of processes where waste/process gases which shall be monitored by SPCBs/CPCB. Low Sulphur Pet Coke shall not be used by the Steel Industry, either ISP or other steel producers, as fuel or for trade.</p> <p>Regulation and Monitoring of such Pet Coke imports shall be as per the guidelines of MoEF&amp;CC issued vide its OM No.Q-18011/54/2018-CPA dated 10.09.2018.</p> |         |            |
| 6 | <p>Import of pet coke for fuel purpose is 'Prohibited'. However, import of Pet coke of the following categories shall be permitted, subject to conditions :</p> <p>a. Import of Pet coke is 'Free' for cement, lime kiln, calcium carbide, gasification industries and graphite electrode industries for use as feed stock or in the manufacturing process only on Actual User basis.</p> <p>b. Aluminium industry can import Calcined Pet Coke not exceeding 0.5 MT per annum and Calcined Pet coke manufacturing units can import raw pet coke not exceeding 1.4 MTs per annum.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 10/2023 | 02/06/2023 |

|                            | <p>c. Import of Needle Pet Coke (NPC) (under HS Code 27131190) is 'Free' for making graphite anode material for Li-Ion battery as feedstock /raw material and not for any other purposes including use as a fuel or for trade. The Sulphur content in the NPC should be less than 0.8% which shall be monitored by State Pollution Control Boards (SPCBs)/CPCB.</p> <p>d. Import of Low Sulphur Pet Coke (under HS Code 27131190) is 'Restricted' and permitted subject to Import Authorisation from DGFT for use in Integrated Steel Plants (ISP) only for blending with the coking coal in recovery type coke ovens equipped with desulphurisation plant and not for any other purpose including use as fuel or for trade purpose. Use of pet coke shall be limited to 10% of its feedstock to the coke oven with pet coke sulphur content not exceeding 3%. Additionally, continuous analysers for measurement of sulphur dioxide shall be installed in the stacks of processes where waste / process gases which shall be monitored by SPCBs/CPCB. Low Sulphur Pet Coke shall not be used by the Steel Industry, either ISP or other steel producers, as fuel or for trade.</p> <p>Regulation and Monitoring of such Pet Coke imports shall be as per the guidelines of MoEF&amp;CC, issued vide its OM No.Q-18011/54/2018-CPA dated 10.09.2018.</p> |                         |                          |
| 7                          | <p>(i) The Coal Import Monitoring System (CIMS) shall require importers to submit advance information in an online system for import of items and obtain an automatic Registration Number by paying registration fee as per Appendix 2K</p> <p>(ii) The importer can apply for registration not earlier than 60th day and till the arrival date (Zero Day) of consignment at gateway port. The Automatic Registration Number shall remain valid for a period of 75 days. Importer shall have to enter the Registration Number and expiry date of Registration in the Bill of Entry to enable Customs for clearance of consignment.</p> <p>(iii) The CIMS will be effective from 01.04.2021, i.e., Bill of Entry filed on or after 01.04.2021 for items as listed in this Notification shall be governed by CIMS. The facility of online registration will be available with effect from 15.02.2021.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 04/2025-26              | 2025-04-15               |
