| Sl.No.     | Notes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Notification No.                 | Notification Date |
| 1          | (A) Goods (other than radioactive ores) answering to a description in heading 2844 or 2845 are to be classified in those headings and in no other heading of this Schedule. (B) Subject to paragraph (A) above, goods answering to a description in heading 2843, 2846 or 2852 are to be classified in those headings and in no other heading of this Section.                                                                                                                                                                                                                                                                 |                                  |                   |
| 2          | Subject to Note 1 above, goods classifiable in heading 3004, 3005, 3006, 3212, 3303, 3304, 3305, 3306, 3307, 3506, 3707 or 3808 by reason of being put up in measured doses or for retail sale are to be classified in those headings and in no other heading of this Schedule.                                                                                                                                                                                                                                                                                                                                                |                                  |                   |
| 3          | Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this Section and are intended to be mixed together to obtain a product of Section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are: (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked; (b) presented together; and (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another. |                                  |                   |
| 4          | Where a product answers to a description in one or more of the headings in Section VI by virtue of being described by name or function and also to heading 3827, then it is classifiable in a heading that references the product by name or function and not under heading 3827.                                                                                                                                                                                                                                                                                                                                              | Notification No.<br>54/2015-2020 | 09.02.2022        |

### Chapter 29 Organic Chemicals.

**Main Notes**

| Sl.No. | Notes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Notification No.                 | Notification Date |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------|
| 1      | <p>Except where the context otherwise requires, the headings of this Chapter apply only to :</p> <p>(a) separate chemically defined organic compounds, whether or not containing impurities;</p> <p>(b) mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (Chapter 27);</p> <p>(c) the products of headings 2936 to 2939 or the sugar ethers, sugar acetals and sugar esters, and their salts, of heading 2940, or the products of heading 2941, whether or not chemically defined;</p> <p>(d) the products mentioned in (a), (b) or (c) above dissolved in water;</p> <p>(e) the products mentioned in (a), (b) or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;</p> <p>(f) the products mentioned in (a), (b), (c), (d) or (e) above with an added stabiliser (including an anti-caking agent) necessary for their preservation or transport;</p> <p>(g) the products mentioned in (a), (b), (c), (d), (e) or (f) above with an added anti-dusting agent or a colouring or odoriferous substance or an emetic added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use;</p> <p>(h) the following products, diluted to standard strengths, for the production of azo dye: diazonium salts, couplers used for these salts and diazotisable amines and their salts.</p> | Notification No.<br>54/2015-2020 | 09/02/2022        |
| 2      | <p>This Chapter does not cover :</p> <p>(a) goods of heading 1504 or crude glycerol of heading 1520;</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                  |                   |

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                  |            |

|   | <p>(b) ethyl alcohol (heading 2207 or 2208);</p> <p>(c) methane or propane (heading 2711);</p> <p>(d) the compounds of carbon mentioned in Note 2 to Chapter 28;</p> <p>(e) Immunological products of heading 3002;</p> <p>(f) urea (heading 3102 or 3105);</p> <p>(g) colouring matter of vegetable or animal origin (heading 3203), synthetic organic colouring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores (heading 3204) or dyes or other colouring matter put up in forms or packings for retail sale (heading 3212);</p> <p>(h) enzymes (heading 3507);</p> <p>(ij) metaldehyde, hexamethylenetetramine or similar substances, put up in forms (for example, tablets, sticks or similar forms) for use as fuels or liquid or liquefied-gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters and of a capacity not exceeding 300 cm<sup>3</sup> (heading 3606);</p> <p>(k) products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packing for retail sale, of heading 3824; or</p> <p>(l) optical elements, for example, of ethylenediamine tartrate (heading 9001).</p> |                                  |            |
| 3 | Goods which could be included in two or more of the headings of this Chapter are to be classified in that one of those headings which occurs last in numerical order.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                  |            |
| 4 | In headings 2904 to 2906, 2908 to 2911 and 2913 to 2920, any reference to halogenated, sulphonated, nitrated or nitrosated derivatives includes a reference to compound derivatives, such as sulphohalogenated, nitrohalogenated, nitrosulphonated or nitrosulphohalogenated derivatives. Nitro or nitroso groups are not to be taken as "nitrogen-functions" for the purposes of heading 2929. For the purposes of headings 2911, 2912, 2914, 2918 and 2922, "oxygen function", the characteristic organic oxygen-containing group of those respective headings, is restricted to the oxygen-functions referred to in headings 2905 to 2920.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Notification No.<br>54/2015-2020 | 09.02.2022 |

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  |  |
|---|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| 5 | <p>(A) The esters of acid-function organic compounds of Sub-Chapters I to VII with organic compounds of these Sub-Chapters are to be classified with that compound which is classified in the heading which occurs last in numerical order in these Sub-Chapters.</p> <p>(B) Esters of ethyl alcohol with acid-function organic compounds of Sub-Chapters I to VII are to be classified in the same heading as the corresponding acid-function compounds.</p> <p>(C) Subject to Note 1 to Section VI and Note 2 to Chapter 28 :</p> <p>(1) inorganic salts of organic compounds such as acid-, phenol- or enol-function compounds or organic bases, of Sub-Chapters I to X or heading 2942, are to be classified in the heading appropriate to the organic compound;</p> <p>(2) salts formed between organic compounds of Sub-Chapters I to X or heading 2942 are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol- function compounds) from which they are formed, whichever occurs last in numerical order in the Chapter.</p> <p>(3) co-ordination compounds, other than products classifiable in Sub-Chapter XI or heading 2941, are to be classified in the heading which occurs last in numerical order in Chapter 29, among those appropriate to the fragments formed by "cleaving" of all metal bonds, other than metal-carbon bonds.</p> <p>(D) Metal alcoholates are to be classified in the same heading as the corresponding alcohols except in the case of ethanol (heading 2905).</p> <p>(E) Halides of carboxylic acids are to be classified in the same heading as the corresponding acids.</p> |  |  |
| 6 | <p>The compounds of headings 2930 and 2931 are organic compounds the molecules of which contain, in addition to atoms of hydrogen, oxygen or nitrogen, atoms of other non-metals or of metals (such as sulphur, arsenic, or lead) directly linked to carbon atoms. Heading 2930 (organo-sulphur compounds) and heading 2931 (other organo-inorganic compounds) do not include sulphonated or halogenated derivatives (including compound derivatives) which, apart from hydrogen, oxygen and nitrogen, only have directly linked to carbon the atoms of sulphur or of a halogen which give them their nature of sulphonated or halogenated derivatives (or compound derivatives).</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |  |
| 7 | <p>Headings 2932, 2933 and 2934 do not include epoxides with a three-membered ring, ketone</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |  |

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |

|    | flufenzine, flupyradifurone, penconazole, propaquizafop, quizalofop-P-tefuryl, triazophos.                                                                                                                                                                                                                                                                |            |            |
| 18 | Tariff item 2934 99 40 covers one of the following goods of sub-heading 2934 99 : Bentazone, bixlozone, clomazone, dazomet, dimethomorph, etoxazole, fluensulfone, flufenacet, flumioxazin, hexythiazox, indoxacarb, isocycloseram, oxadiargyl, oxadiazon, phosalone, pinoxaden, thiacloprid, thiocyclam hydrogen oxalate, valifenalate.                  | 44/2025-26 | 15/10/2025 |
| 19 | Tariff item 2935 90 40 covers one of the following goods of sub-heading 2935 90 : Amisulbrom, azimsulfuron, bensulfuron methyl, chlorimuron ethyl, cyazofamid, cyzofamide, diclosulam, flucetosulfuron, helosulfuron methyl, mesosulfuron methyl, penoxsulam, pyrazosulfuron ethyl, pyroxsulam, sulfentrazone, sulfosulfuron, triafamone, triasulfuron.'; | 44/2025-26 | 15/10/2025 |
| 2  | Tariff item 2916 39 70 covers one of the following goods of sub-heading 2916 39 : Alphanaphthyl acetic acid, cyclanilide, kresoxim methyl, metofluthrin, permethrin, renofluthrin, transfluthrin                                                                                                                                                          | 44/2025-26 | 15/10/2025 |
| 3  | Tariff item 2918 99 30 covers one of the following goods of sub-heading 2918 99 : 2,4-D amine salt, 2,4-D- ethyl ester, 2,4-D sodium salt, 2,4-dichlorophenoxy acetic acid, prohexadione calcium, s-bioallethrin, sodium acifluorfen.                                                                                                                     | 44/2025-26 | 15/10/2025 |
| 4  | Tariff item 2924 19 10 covers one of the following goods of sub-heading 2924 19 : Bendiocarb, carboxin, chlorpropham, fenobucarb (BPMC), fluazaindolizine, methomyl, metolachlor, propamocarb hydrochloride, thiodicarb.                                                                                                                                  | 44/2025-26 | 15/10/2025 |
| 5  | Tariff item 2924 21 40 covers one of the following goods of sub-heading 2924 21 : Bifenazate, carbosulfan, cyflufenamide, fenoxanil, flufenoxuron, ipfencarbazone,                                                                                                                                                                                        | 44/2025-26 | 15/10/2025 |

|   |                                                                                                                                                                                                                                                                                                                                               |            |            |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|------------|
|   | lufenuron, metaflumizone, metsulfuron methyl, novaluron, orthosulfamuron, pencycuron, sulfosulfuron, teflubenzuron, triafamone, triasulfuron, trifloxysulfuron sodium.                                                                                                                                                                        |            |            |
| 6 | Tariff item 2924 29 70 covers one of the following goods of sub-heading 2924 29 : Pretilachlor (ISO), anilophos, benalaxyl, benalaxyl M, broflanilide, butachlor, carpropamid, cyclaniliprole, diflubenzuron, dimethenamid-P, diuron, fluxametamide, iprovalicarb, mandipropamid, metalaxyl-M, propanil, propoxur, pydiflumetofen.            | 44/2025-26 | 15/10/2025 |
| 7 | Tariff item 2926 90 10 covers one of the following goods of sub-heading 2926 90 : Alphacypermethrin, beta cyfluthrin, chlorothalonil, cyflumetofen, cyfluthrin, cyhalofopbutyl, cymoxanil, cyphenothrin, deltamethrin (decamethrin), dithianon, fenpropathrin, fenvalerate, fluvalinate, hydrogen cyanamide, lambdacyhalothrin, myclobutanil. | 44/2025-26 | 15/10/2025 |
| 8 | Tariff item 2930 20 10 covers one of the following goods of sub-heading 2930 20 : Cartap hydrochloride (ISO), mancozeb, metiram, propineb, thiobencarb (benthiocarb), triallate, ziram.                                                                                                                                                       | 44/2025-26 | 15/10/2025 |
| 9 | Tariff item 2930 90 92 covers one of the following goods of sub-heading 2930 90 : Acephate (ISO), phorate (ISO), captan, clethodim, diafenthiuron, ethion, malathion, oxydemeton-methyl, phenthoate, profenophos, temephos, thiophanate-methyl.                                                                                               | 44/2025-26 | 15/10/2025 |
